Teagan Judith Dixon
13205 Farm Lane
DeWitt, MI 48820
Phone: (517) 281-4267

Skills / Qualifications:
- Development and delivery of learning programs in classroom and virtual environments spanning undergraduate, graduate and professional development levels.
- Project management of projects exceeding 14,000 hours / revenues of $12.4 million.
- Understanding of business processes and application of data analytics, with a focus on the Consumer Products and Chemical Industries.
- Design and audit of internal controls, with a focus on those relevant to internal controls over financial reporting.
- Proficient in most major technologies, including SAP, Oracle eBusiness Suite, PeopleSoft, and others, including their relevant infrastructures.

Education:
Michigan State University, East Lansing, MI – September 2005 to May 2007
- Masters of Science in Accounting, Eli Broad College of Business
- Dual specialization in Information Systems and Tax
- 3.9 cumulative GPA

Michigan State University, East Lansing, MI – Fall 1998 to May 2002
- Bachelor of Arts in Finance, Eli Broad College of Business
- 3.68 cumulative GPA
- Member of the Honors College

Professional Experience:
Michigan State University, Accounting & Information Systems, East Lansing, MI, (Term Instructor) – June, 2019 – present
- Instructor for ITM209 Business Analytics and Information Systems
- Instructor / Coordinator for two capstone courses for the IT Minor program and the Masters in Business Analytics program: ITM 444 I.T. Project Management Capstone and ITM 888 Capstone Business Analytics Corporate Project

Deloitte & Touche, LLP, Detroit, MI, (Senior Manager, Risk Advisory) – July 2007 to September 2019
- Served two (2) years in an internal role as the Chief of Staff to the Deloitte Global Risk Advisory Assurance leader to develop guidance, create and develop training programs, promote growth of the market offering, organize global meetings with 90+ global participants, coordinate innovation initiatives related to audit tools, manage global audit quality, deliver global webcasts, manage the global Assurance budget, and status reporting to executive boards and other internal and external committees.
- Performed coordination between Enterprise Data Analytics (EDA) professionals, financial auditors and client management to identify strategies for applying data analytics to audits, including implementation of automated data collection and analysis of financial information from enterprise systems.
- Responsible for maintaining client relationships with key contacts at clients within my portfolio, including those in the C-suite such as the CIO, CISO and CAE.
- Planning, oversight of testing, concluding and reporting upon the effectiveness of internal controls and adherence to COSO principles for SOC (Service Organization Controls) reports and Integrated Audits of global SEC registrants. This included responsibility of managing international component teams and remote off-shore staff.
- Developed tools for automated data collection and analysis of security, segregation of duties, configurations and other relevant data for testing controls. Certain tools were adopted as global firm tools resulting in large efficiencies for the firm when scaled across the global Deloitte network.

Michigan State University, Accounting & Information Systems, East Lansing, MI, (Adjunct Faculty) – August 2018 to December 2018; August 2006 to June 2007
- August 2018 to December 2018: Taught one (1) section of the graduate ACC824 Governance and Control of Enterprise Systems. The course followed the ISACA COBIT framework for IT controls and covered topics on IT auditing and compliance within organizations.
- August 2006 to June 2007: Taught five (5) sections of the undergraduate ACC321 Information Systems course across three semesters. Course topics were related to conceptual business process database modeling and internal controls. Additionally, had responsibility for managing the teaching assistant assigned.
- Responsibilities for both courses included development of course content, creation of assignments and exams, and delivery of daily lectures.
